Dear Mrs. DeMarre:

MARTHA

This transmits two boxes of recently collected Marshall Islands documents. The first box (i.e. number 50) represents documents from the Atomic Energy Commission's (AEC) Secretariat at the National Archives and Records Administration's facility at College Park (NARA-College Park) and the Department of Energy's Historian's Office at the Germantown, Maryland, facility. The documents from the NARA-College Park facility contain many recently declassified documents. The second box (number 51) are those documents collected recently at the Pacific Northwest National Laboratory (PNNL). For these boxes, please complete the following tasks:

1. Compare the enclosed documents against the ones already in the Coordination and Information Center's (CIC) fallout database. For any that do not exist at the CIC already, please redact, process, and enter into the CIC's database and openet, as appropriate.
2. Make two complete copies of each box to send to the Marshallese Government. Please include an index for each box. Send each set to:

3. Make two copies of the AEC notices already existing at the CIC that have been requested by me. Provide these along with the above boxes.

4. Make two copies of PNNL documents already existing in the CIC database. Provide these along with the above boxes.

I will also need to coordinate final activities at the CIC to assign box numbers, describe contents, and to ensure that an accompanying letter is included in each box. Please feel free to contact me at 301-903-4024 or neil.barss@eh.doe.gov, if you require additional details.
